

MENTAL HEALTH SUPPORT SHOULDN'T WAIT

When a young person needs help, long wait times, lack of insurance, and high cost shouldn't stand in the way.

That's why United Way of Washington County is bringing partners together to solve one of our community's most urgent needs: access to youth mental health care.

FILLING AN URGENT GAP

Since 2022, **United Way has invested \$912,500** to expand counseling and support services for uninsured and underinsured youth.

- **Catholic Charities** offers low-cost or free individual, group and family counseling. Open to all faiths, cultures and backgrounds.
- **Youth & Family Project** provides school-based and onsite counseling in partnership with school guidance counselors.
- **Kettle Moraine YMCA** offers free teen mental health programming and skill-building.

**Every young person deserves access
to the support they need to thrive.
DONATE TODAY.**
